Welcome

Welcome to the Baraboo Rural Training Track, where we offer unopposed, full-spectrum family medicine training in a close-knit community. Our flexible, longitudinal curriculum places an emphasis on lifelong learning in an apprenticeship model. Founded in 1996, the Baraboo program offers unique challenges and rewards to physicians committed to serving rural communities.

Program/Curriculum Highlights

• **“1-2” Rural Training Track** model in which you spend your first year primarily in Madison completing inpatient rotations, and establish a continuity patient panel during two half-days of clinic at SSM Health Dean Medical Group - Baraboo Primary Care, the program’s family medicine practice. In your second and third year, you’ll round out your residency experience through full immersion in the Baraboo community.

• **Strong maternity care training**, from prenatal to postnatal, taught by family physicians in an unopposed setting with a supportive consulting OB/GYN from Madison. We also offer an optional C-section curriculum to qualified residents at the discretion of the teaching general surgeon.

• **Robust procedural training** in clinical and hospital settings. You’ll carry a procedure pager and will be invited by the hospitalist, surgical and emergency medicine physicians to participate in procedures.

• **Opportunity to be a leader in global health** efforts by participating in an elective global health pathway and international rotation.

• **Needs-based flexible curriculum** that allows you to tailor your educational goals to align with future practice requirements.

• **Rural physician retention**: 71% of Baraboo graduates continue to practice in the rural United States; 29% of the 71% are active faculty at the Baraboo program.

• The **“best of both worlds”** with access to curriculum resources locally as well as those offered by the Madison program.

• **Full spectrum family medicine training** during PGY2/PGY3 in which you are taught in an apprenticeship model.

• Combined **Hospitalist and Traditionalist model** at St. Clare Hospital where you will acquire the skills necessary to admit, round on, care for and handoff hospitalized patients.

• Your clinical training site, SSM Health Dean Medical Group - Baraboo Primary Care, is located on the same campus as St. Clare Hospital and Dean Baraboo Specialty Clinic. Much of your training will occur within walking distance of your continuity clinic!
Community Highlights

Located 45 minutes northwest of Madison in beautiful, recreational south-central Wisconsin, Baraboo is home to 12,000 people. In 2013, Baraboo was named the 4th Best Small Town to Visit in the United States by Smithsonian Magazine. The town’s many turn-of-the-century homes, built on hillsides, are reminiscent of New England. St. Clare hospital is situated atop a hill offering a breathtaking view of the ancient, majestic bluffs which wrap around Devil’s Lake. Downtown Baraboo, referred to as “the square,” offers several specialty stores, gift shops, restaurants and art galleries. The square is also home to summer concerts and farmer’s markets.

The surrounding area offers many points of interest and recreation, including:

- Devil’s Lake State Park, which features cross-country skiing, swimming, canoeing, kayaking, fishing, camping, rock climbing, hiking and biking
- Devil’s Head and Cascade Mountain downhill ski areas
- The world-renowned Circus World Museum, home of the Ringling Brothers
- International Crane Foundation
- Wisconsin Dells and Lake Wisconsin vacation areas

Hospital

As a first-year resident, you’ll complete inpatient rotations at St. Mary’s Hospital, Meriter, University of Wisconsin Hospital and Clinics and American Family Children’s Hospital in Madison. During your second and third years, you’ll be immersed in the rural full-spectrum family medicine experience by taking call, performing surgeries, admitting patients, providing maternity care, rounding on nursing home patients and working in the ER at St. Clare Hospital in Baraboo.

Family Medicine Practice

SSM Health Dean Medical Group - Baraboo Primary Care is the ambulatory training site of the Baraboo Family Medicine RTT. The faculty consists of 12 Family Medicine physicians, 5 of whom are graduates of the Baraboo RTT. In addition to family medicine physicians, the site is home to a pediatrician, internal medicine physicians, and mid-level primary care providers.

SSM Health Dean Medical Group - Baraboo Primary Care, clinic site for Baraboo residents

Medical Student Rotations

Medical students interested in a future career in rural family practice should consider participating in a four-week rotation at the Baraboo RTT. We accept fourth-year medical students for elective rotations during the months of June, August, September and October. For further information, please contact Joyce Jeardeau at: joyce.jeardeau@fammed.wisc.edu.

JULY 2018
Welcome to Eau Claire and Augusta!

Thank you for your interest in the outstanding Prevea Health Family Medicine residency program in Eau Claire and Augusta. The top four reasons to join our outstanding program are:

- **Our residents** are a talented, diverse, enthusiastic and hardworking group who support each other to succeed in residency and life.
- **Our expert faculty** includes five physicians (one DO) who are skilled in obstetrics, geriatrics, international and cross-cultural medicine, clinical research, practice management, colposcopy, ultrasound, stress testing and more!
- **Our residency program** offers a full-spectrum family medicine experiences.
- **Eau Claire** is annually ranked among the **best places in the country for quality of life**.
- **We are ACGME accredited** with osteopathic recognition through our affiliation with the University of Wisconsin Department of Family Medicine and Community Health Statewide Osteopathic Collaborative.

Community Highlights

Eau Claire, a city of 66,000, offers many educational, cultural and entertainment opportunities. It’s a great place to work and play. Residents enjoy Eau Claire’s urban qualities as well as the comforts and conveniences of our small city: affordable housing, friendly people and a low crime rate.

Outpatient Centers

Our outpatient facility in Eau Claire, Prevea Health Family Medicine, is conveniently located across the street from HSHS Sacred Heart Hospita, and minutes from Mayo Clinic Health System-Eau Claire Hospital. The clinic, which started in 1975, has a well-established patient population. Prevea Health Family Medicine boasts state-of-the-art facilities. Come and see for yourself!

Residents who are interested in rural practice may arrange a rotation at our rural outpatient facility. Prevea Augusta Health Center is located 18 miles from Eau Claire.

A Virtual Medicine Center

As a resident, you’ll have learning opportunities in a virtual medical center equipped with human patient simulators. These computer-driven, full-sized mannequins deliver realistic scenarios that provide valuable teaching opportunities.

Hospitals

Our residents work at HSHS Sacred Heart Hospital and Mayo Clinic Health System-Eau Claire Hospital. Both hospitals have received national recognition for excellence, and provide supportive learning environments.
Curriculum Highlights

- Our program embraces evidence-based medicine and offers a competency-based curriculum.
- Our residents are enthusiastic about their pediatrics curriculum. You will have inpatient and outpatient rotations with our partner clinics and hospitals in Eau Claire, as well as inpatient and emergency department rotations at Children’s Hospitals and Clinics of Minnesota.
- You’ll work with internal medicine subspecialists, general internists, and family physicians to learn how to care for patients on the medicine floor and in the intensive care units. These rotations offer varied learning experiences including palliative and end-of-life care.
- Our faculty clinical social worker helps residents identify, treat and/or refer patients with human behavior and mental health issues. You’ll also acquire behavioral health skills from structured inpatient and outpatient experiences.
- Scheduling flexibility allows for residents to arrange international and away electives. Residents have pursued such rotations in special interest areas including high volume obstetrics in Waukesha, Wisconsin and Haiti and prolotherapy in La Ceiba, Honduras.

Resident Quotes

- “I have been very happy at the Eau Claire program, and so grateful that I ended up here. A work-home balance has been quite attainable, with a schedule that is flexible and not soul-crushing. When I run into my colleagues I am happy to see them, and enjoy spending time with them outside of work.”
  – Thomas Steigerwald, MD (PGY-3)
- “My experience in Augusta has so far exceeded my expectations in terms of patient diversity, variety of conditions and diagnostic challenges, and support from the staff and faculty I am fortunate enough to work with every day. I am very happy with my decision to be the rural resident with this program!”
  – Crystal Lalonde, MD (PGY-2)
Welcome to the Madison Residency Program!

Our core value is a commitment to the personal and professional growth of each resident. We foster that growth within the framework of a dynamic curriculum and we nurture our extraordinary residents, faculty and staff. We are a community of colleagues who are generous in our support of each other.

Tom Hahn, MD (Associate Program Director), Ildi Martonffy, MD (Program Director) and Jens Carlson, MD (Associate Program Director)

Program/Curriculum Highlights

- A dedicated patient panel for three years in a family medicine center where the priority is family-centered, collaborative evidence-based care.
- An integrated focus on all aspects of behavioral health in line with the patient-centered medical home: residents have direct access to brief intervention and therapy services within the clinic. Residents also receive training in managing behavioral health concerns and ongoing support in relationship building and patient-centered communication.
- Programming designed to enhance understanding of community and population health, including core competencies in public health, community engagement, and critical thinking.
- Robust experiences in critical care medicine.
- Solid pediatrics experience with opportunities to manage care in a variety of outpatient and community and university hospital settings.
- Resident-led teams with opportunities to teach medical students, junior residents, and faculty colleagues in multiple settings.
- The Rural Health Equity Track offers two residents per year an unique experience in community health, leadership, and advocacy that emphasizes health disparities specific to rural populations.
- A partnership system that pairs first-year residents for some inpatient rotations, their community health rotation, and in their continuity clinic.
- A resident wellness and self-care curriculum (Aware Medicine) is integrated throughout the three-year experience, with time allocated for regular resident “check-in groups” led by UW Mindfulness Program instructors.
- Protected afternoons for resident seminar series, including hands-on workshops, didactic lectures, and self-care sessions.
- Dedication to resident professional development through close mentor/mentee relationships, scholarship opportunities, and guided personal reflection.
- A wide array of electives to satisfy residents’ interests, including optional “Pathways” that allow residents to gain in-depth experience, knowledge, and skills in specific areas of interest.
- Opportunities to write for publication and to do research with NIH-funded researchers.
Community Highlights

A vibrant city situated between two lakes, Madison is Wisconsin’s capital and home of the University of Wisconsin–Madison. Madison boasts a lively music scene, a stunning arts complex, eclectic restaurants, and an energetic intellectual and political climate. Madisonians are also never more than 20 minutes from the countryside, where recreational opportunities abound. To learn more, visit http://www.cityofmadison.com.

Faculty and Residents

Our faculty are a talented, dynamic group of academic family medicine educators and clinicians who are complemented by fellows and community family physicians. They are nationally recognized in the areas of research, integrative health, international health, sports medicine, developmental disabilities, and more. Our residents come to the program from diverse backgrounds and an array of educational and life experiences.

Hospitals

Our program offers residents an exceptional balance between community and academic environments. Rotations are primarily at St. Mary’s Hospital, an outstanding regional medical center where our residents are the only house staff. Residents also rotate at the University of Wisconsin Hospital and Clinics on our family medicine service and at the American Family Children’s Hospital on the pediatrics service.

“...The training at Madison is the perfect combination of the independence and breadth of a well-resourced community hospital and the acuity and complexity of a nationally renown academic health center. This provides the best of both worlds for our robust family medicine training. Clinically, we have excellent opportunities for procedural training. To top it off, our incredible faculty provide us mentorship in evidence-based, patient-centered primary care.”

– Eric Phillippi, MD (Graduate)

Medical Student Rotations

• Medical student rotations are available at our residency teaching clinics and/or on our inpatient family medicine teaching services. For more information, contact Joyce Jeardeau at joyce.jeardeau@fammed.wisc.edu.

Belleville –
8 residents (4 per year)
• Rural practice in the small community of Belleville, located 19 miles from Madison.
• Only medical practice in town, serving a large number of geriatric patients as well as a growing younger population.

Northeast –
12 residents (4 per year)
• Located in an urban neighborhood serving a socially and economically diverse patient population.
• Close coordination with neighborhood, city, county and state health, social service, and education agencies.

Verona –
12 residents (4 per year)
• Suburban/Rural practice in a growing community southwest of Madison serving young families and an elderly population.
• Number of small industries in the area provides residents with experience in minor trauma and other work injuries.

Wingra –
12 residents (4 per year)
• Urban, practice in the heart of Madison serving a racially and ethnically mixed community on Madison’s south side.
• Large Spanish-speaking population and strong community connections.

JULY 2018
Wausau Family Medicine Residency

“Welcome Home” to Wausau. We offer solid education in a “Welcome Home” community. Teaching, learning and care form the foundation of your residency and reflect the principles to which our program is committed. A strong curriculum, supportive faculty and a diverse patient population will prepare you for independent rural practice.

Facility, Kevin Thao, MD, discusses a case with resident, Amanda Schoenhuss, DO, (PGY3).

“I was fully prepared for my independent practice in a rural community. Efficiency and practice management come together with medical training. Wausau is the best place to learn core family medicine.”
– Coy Johnston, MD, 2014 graduate

Program/Curriculum Highlights
As a Wausau resident, you’ll gain intensive, progressive learning experiences in a setting that brings state-of-the-art resources to meet the health care needs of a rural community. Known for educational excellence, our program provides rigorous experiences in rural medicine, cardiac and medical intensive care, emergency medicine, pediatrics, and obstetrics.

Residents, David Cao, MD, and Amanda Schoenhuss, DO, work on clinic notes in their own carrels at the Aspirus Wausau Family Medicine clinic.

Highlights of the curriculum include:
• A three-week rotation in Management of Health Systems that builds your confidence in the clinic, hospital and community.
• Emphasis on inpatient experiences in the first year, intensive medicine and rural rotations in the second year, and a focus on outpatient family medicine in the third year.
• Emergency medicine in the Aspirus Wausau Hospital emergency department and regional trauma center.
• Scholarly inquiry and research initiatives supported by the University of Wisconsin School of Medicine and Public Health.
• Electives that allow you to gain either a greater breadth of perspective through a variety of specialty care experiences, or a greater depth of knowledge by concentrating on a single area of practice.

Residents, David Cao, MD, and Amanda Schoenhuss, DO, work on clinic notes in their own carrels at the Aspirus Wausau Family Medicine clinic.

Community Highlights
• A city with a rural, riverfront feel
• An energetic arts community
• Great schools
• Various outdoor recreation opportunities
• Junior World Cup Kayak Championship site
• Host to the Badger State Winter Games
• Summer/Winter Special Olympics venue

Our 65,000 residents invite you to make Wausau your hometown.
Wausau’s quality of life ranks among the best and safest in the nation for communities of its size. It offers cultural events through the Performing Arts Foundation, the Wausau Conservatory of Music, community theater groups and the Marathon County Historical Society. There are museums, art galleries and display gardens. Extensive sporting opportunities are available year-round. Outdoor opportunities include downhill and cross-country skiing, hunting, fishing, boating, team sports and camping.

Faculty and Residents

Our core faculty includes six physicians and a clinical social worker. Program Director John Wheat, DO, and the faculty create an atmosphere in which work/life balance is an important part of training and care.

For your model ambulatory clinical practice, you will be a member of a provider team that includes one or more faculty, residents at each level of training, a triage nurse, and medical assistants. The team structure promotes continuity for you as well as for your patients.

“UW Wausau truly offers full spectrum family medicine. My average day includes caring for patients longitudinally from cradle to grave and managing care from the clinic to the ICU or delivery room. The residents and faculty are welcoming, supportive and inspiring colleagues. I’m amazed by the breadth of our caseload and specialty services available here in Wausau. – Caitlin Harris, DO (PGY3)

Hospital

Aspirus Wausau Hospital is recognized as one of the 15 Top Health Systems in the nation by IBM Watson Health and is ranked one of America’s top 100 hospitals by Truven Health. Servicing a 12-county area, Aspirus provides expanded services in emergency medicine, cardiac care, newborn and neonatal intensive care, and cancer treatment. The hospital staff of more than 300 physicians in 37 specialties makes Aspirus an exceptional training environment.

Family Medicine Clinic

Located on the Aspirus Wausau Hospital campus, Aspirus Family Medicine Clinic serves a diverse patient population, including:

- Whole families, from infants to the frail elderly;
- Persons living with HIV; and
- Southeast Asian and Pacific Islander immigrant families.

Two residents practice at Aspirus Weston Clinic, a facility just 10 minutes from the hospital.

Medical Student Rotations

We welcome fourth-year medical students and physician assistant students for rotations, which are a great way to learn more about our program and our people. Please contact Jane Meyer for more information at jane.meyer@aspirus.org and joyce.jeardeau@fammed.wisc.edu to register.
# Resident Benefits—A Quick Glance

University of Wisconsin Department of Family Medicine and Community Health (UW DFMCH)

Academic Year July 1, 2018 through June 30, 2019

<table>
<thead>
<tr>
<th>Benefit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Professional</strong></td>
<td></td>
</tr>
<tr>
<td>Professional Memberships</td>
<td>Resident membership is paid for the American Academy of Family Physicians (AAFP) and the Wisconsin Academy of Family Physicians (WAFP). For osteopathic residents, membership is also paid for the American Osteopathic Association (AOA), the American College of Osteopathic Family Physicians (ACOFP) and the Wisconsin Association of Osteopathic Physicians and Surgeons (WAOPS).</td>
</tr>
<tr>
<td>Life Support Courses</td>
<td>Depending on the program, fees may be covered for the following life support courses:</td>
</tr>
</tbody>
</table>
|                               |   • Advanced Cardiac Life Support (ACLS);  
|                               |   • ACLS re-certification;  
|                               |   • Pediatric Life Support (PALS);  
|                               |   • Neonatal Resuscitation Program (NRP);  
|                               |   • Advanced Trauma Life Support (ATLS); and  
|                               |   • Advanced Life Support in Obstetrics (ALSO).                                                                                                                                                             |
| Professional Development      | Funds are provided to attend conferences, purchase medical books, journals and educational software, and reimburse other approved professional development expenses. Each resident will receive $1,000 in each of the PGY 1, 2, and 3 training years. |
| Board Exam Fees               | Board eligible PGY-3 residents are required to take the ABFM exam in the spring of their 3rd year as a condition of employment. The base fee will be covered by the DFMCH. In addition, osteopathic residents in the Statewide Osteopathic program will be required to take the AOBFP exam in the spring of their 3rd year and the base fee for the exam is covered by the osteopathic program. |

## Paid Time Away

<table>
<thead>
<tr>
<th>Benefit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Personal Days</td>
<td>Residents receive paid time away for personal use such as vacation, illness or injury, and job interviews. First-year residents receive 15 days, and second- and third-year receive 20 days.</td>
</tr>
</tbody>
</table>
| Holidays                 | As scheduling for patient care coverage permits, paid holidays are:  
|                          |   • New Year’s Day  
|                          |   • Martin Luther King Day*  
|                          |   • Memorial Day  
|                          |   • Independence Day  
|                          |   • Labor Day  
|                          |   • Thanksgiving Day  
|                          |   • Christmas Eve Day*  
|                          |   • Christmas Day  
|                          |   • New Year’s Eve Day*  

*Floating holiday time may be granted in place of these days when the residency clinic is open, subject to patient care needs and local program policy.*

| Professional Development | Second- and third-year residents may take five additional paid days to attend professional conferences and other professional development activities. |
| Life Support Courses     | Paid time away is provided for participation in the following life support courses: ACLS, ACLS re-certification, NRP, PALS, ATLS, and ALSO.                     |
| Leave of Absences        | It is recognized that residents may occasionally need to be away for longer periods of time for parental leave, medical conditions, or other personal/family matters. Leaves of absence are arranged in collaboration with the local program director.  
|                          | Residents are eligible for up to one month of paid leave in certain circumstances. A second month of paid leave may be available at the discretion of the program director.  
|                          | There is full compliance with Family and Medical Leave Act guidelines, permitting up to 12 weeks of unpaid leave.                                         |
## Insurance and Retirement

<table>
<thead>
<tr>
<th>Benefit Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Group Health Insurance</td>
<td>Several comprehensive health care plans are available for residents and their eligible dependents, domestic partners, and eligible adult children.</td>
</tr>
<tr>
<td>Dental Insurance</td>
<td>Dental coverage is available for residents and their eligible dependents, domestic partners, and eligible adult children. Residents may select from basic coverage to a more comprehensive plan.</td>
</tr>
<tr>
<td>Vision Care Insurance</td>
<td>Vision care insurance is available for residents and their eligible dependents, domestic partners, and eligible adult children.</td>
</tr>
<tr>
<td>Group Life Insurance</td>
<td>Residents may select group life insurance: either individual coverage for themselves, or coverage that includes their spouse/domestic partner and eligible dependents.</td>
</tr>
<tr>
<td>Long-Term Disability Insurance</td>
<td>Long-term disability is provided for all residents. This provides a monthly benefit in the event of a covered disability.</td>
</tr>
<tr>
<td>AD&amp;D Insurance</td>
<td>Accidental Death and Dismemberment insurance (AD&amp;D) provides a benefit in the event of accidental loss of life, sight, or limb, subject to guidelines of the policy. Residents may select individual coverage, or coverage to include their spouse/domestic partner and eligible dependents.</td>
</tr>
<tr>
<td>Malpractice Insurance</td>
<td>All residents are provided medical malpractice/professional liability benefits by their employer.</td>
</tr>
</tbody>
</table>
| Pre-Tax Benefits                    | Residents may elect to pay for certain expenses from pre-tax, rather than after tax income, as authorized by the federal Internal Revenue Code – enrollment in these programs reduces taxable income. Programs include:  
   - Pre-tax medical expense reimbursement account for income allocated for approved out-of-pocket health care costs.  
   - Pre-tax dependent day care reimbursement account for income allocated for qualified day care costs for dependents |
| Retirement Plan                     | Residents may choose to enroll and contribute to an employer-administered retirement plan. Resident contributions are 100% vested. |

## Additional Benefits

<table>
<thead>
<tr>
<th>Benefit Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Resident Salary</td>
<td>Residents are provided an annual salary consistent with resident salaries provided at the University of Wisconsin Hospitals and Clinics. <strong>The salaries for July 1, 2018 to June 30, 2019 are $57,870 for PG-1, $60,010 for PG-2, and $62,239 for PG-3.</strong></td>
</tr>
<tr>
<td>Resident Support</td>
<td>resident support and social activities with peers are essential components of each UW DFMCH residency program. These vary by program, and may include retreats, dinners, parties, resident support groups, and more. Additionally, all residents are offered and have direct access for individual confidential support and counseling from their employing organization for work-related and personal issues.</td>
</tr>
<tr>
<td>Meals</td>
<td>Meals may be provided at no charge for residents during local program conferences, and while on hospital call or hospital services.</td>
</tr>
<tr>
<td>Pagers</td>
<td>Pagers and associated monthly fees are provided at no cost to residents.</td>
</tr>
<tr>
<td>Research Assistance</td>
<td>Residents may apply for small grant funding from the UW DFMCH. Additionally, research staff and principal investigators are available for guidance and assistance for residents interested in research.</td>
</tr>
<tr>
<td>Local Program Benefits</td>
<td>Each program may offer benefits such as travel stipends, lab coats, relocation expenses, parking, and more. Check with the local program director or education coordinator for details.</td>
</tr>
</tbody>
</table>

The University of Wisconsin Department of Family Medicine and Community Health is pleased to offer generous and competitive benefit packages for residents in our programs in Baraboo, Eau Claire, Madison, and Wausau.

Welcome Students! The University of Wisconsin Department of Family Medicine and Community Health (UW-DFMCH) is pleased to offer fourth year electives for visiting students at our residency programs statewide. Learn from family physicians and residents at one of the country's top Family Medicine departments. Students are key members of the team and are involved in the full spectrum of patient care. In addition to seeing patients in the family medicine center, students have the opportunity to participate in hospital admissions and births, and provide emergency care. For more information, visit http://www.fammed.wisc.edu/med-student/senior-electives/4year

Baraboo Rural Training Track
Experience rural medicine in a well-staffed group practice setting: The Baraboo Program is an accredited, three-year residency program affiliated with the Madison Residency Program.

Course Information: Clinical Clerkship in Rural and Community Health Care – Course #370-927.
Rotation Details: 4 week rotations offered fall semester.

Madison Residency
Choose from rural and urban family medicine centers with unique patient populations. Explore special interests such as integrative medicine, sports medicine, developmental disabilities, and more. Choose from the following: Belleville (Rural), Northeast (Urban), Verona (Suburban/Rural), Wingra (Urban). (Course #370-920)

Course Information: Clinical Clerkship in Rural and Community Health Care – Course #370-927.
Rotation Details: 4 week rotations available year-round.

Aurora Residency
Work with diverse faculty and clinic populations in Wisconsin's largest city. Two course options available. Clinical Clerkship at St. Luke’s Medical Center – Course # 370-930
Lakeland – Course # 370-23
Waukesha – Course # 370-923

Rotation Details: 4 week rotations available year-round.

Wausau Residency
Work with a diverse patient population (persons living with AIDS, Southeast Asian and Pacific Islander immigrant families, infants to the frail elderly) in a welcoming, progressive rural community.
Course #370-923

Rotation Details: 4 week rotations offered year-round.

LaCrosse Residency
Choose a family medicine rotation in a rural Wisconsin area to explore opportunities with a diverse rural population. You will be able to experience full scope practice with both inpatient and outpatient opportunities.
Course #370-927

Additional Electives – 2 – 4 weeks rotations
- Integrative Medicine – Course # 370-919I
- Addictive Disorders – Course # 370-931
- Community Based Care of the Elderly – Course # 370-940
- Family Medicine Sub I
  - St. Mary’s Hospital – Course # 370-935
  - UW Hospital – Course # 370-937

Application/Registration Information
- Students must submit a DFMCH supplemental application and be accepted to the visiting student program by the UW School of Medicine and Public Health (UWSMPH) before UW-DFM may consider you for an elective. Visiting student registration opens in April 30, 2018 on VSAS.

- UWSMPH Application Process: Go to the UWSMPH Visiting Student Clerkship Program website, review the requirements, and complete all components of the application process on VSAS: http://www.med.wisc.edu/education/visiting-students/main/377

- Department of Family Medicine and Community Health Supplemental Application: Tell us more about your interests and elective preferences through our online application http://www.fammed.wisc.edu/med-student/senior-electives/#visit. Completion and submission of the DFMCH supplemental application is required when starting the UWSMPH/VSAS application process.
