

# The Recognition Fund

## Celebrate Your Colleagues

Many of us have colleagues at the University of Wisconsin Department of Family Medicine and Community Health (DFMCH) who are not only our professional peers, but also our good friends. Together, we've cared for patients and families, nurtured learners, advanced research knowledge and supported each other's careers.

### How have your colleagues touched your life?

Through the Recognition Fund, you have an opportunity to celebrate the people you have worked with—those who in many ways are as important as family.

We invite you to reflect on those incredible people, and learn more about how you can show your appreciation.

## Many Reasons for Recognition

- **Professional Accomplishments.** Acknowledge a colleague's promotion, accolade, major award or national recognition.
- **Work Anniversaries.** Honor years of service and commitment to the department.
- **Mentor Appreciation.** Recognize those who have provided guidance and support in your career.
- **Birthdays.** Celebrate birthdays, no matter how many candles are on the cake!
- **Family Milestones.** Congratulate a colleague on the birth of a baby, a marriage, an anniversary, or other family occasion.
- **Friendship.** Let someone know how much you've appreciated his or her friendship over the years.
- **Legacy Recognition.** Pay tribute to those who have passed on.

**You can recognize anyone at the DFMCH who has been important to you, for any reason!**

## How Can You Help?

Through a donation to the Recognition Fund, you can honor colleagues in the DFMCH—past or present—who have touched your life. You can recognize anyone for any reason, and you may also give anonymously. All contributions are valued and will be recognized.

Your donation will go to a special fund designed to support DFMCH faculty and staff development, educational opportunities for learners and other activities in support of the DFMCH's statewide missions.

**To discuss a contribution, please contact Linda Haskins at (608) 263-3402.**
