Introduction

Annual Budget

Effective July 1, 2010, Wisconsin Act 190 provided an annual \$750,000 to fund a rural physician residency assistance program as part of the State's Critical Access Hospital Assessment to raise additional funding to match Medicaid reimbursement. At the direction of the legislature, the program was established in the University of Wisconsin's Department of Family Medicine and Community Health (DFMCH) and named the Wisconsin Rural Physician Residency Assistance Program (WRPRAP). It has been renewed each biennium since originally enacted. The program administration created a Grant Review Committee as a formal process to strengthen and improve the number and size of awards to be approved for allocation toward rural graduate medical education (GME), based on anticipated available funds and existing commitments.

In the beginning of Fiscal Year 2018 (July 1, 2017) the State of Wisconsin allocated an increase of \$100,000 to the annual WRPRAP budget, additional increases have occurred, and the current WRPRAP budget is \$863,600.

Accomplishments

From January 1, 2022 to December 31, 2022, WRPRAP awarded 9 grants for a total of \$585,872.78. There were two cycles of grants awarded throughout this period: in February 2022, awards were provided with remaining fiscal year 2022 funds, and in September 2022, awards were provided for initial fiscal years 2023 and 2024. The awards ranged from \$14,289.78 to \$173,355.00 with projects including rural rotations, fellowship development, technical assistance, and program support (See Exhibit 1 WRPRAP Awards).

Since its inception, WRPRAP has awarded 112 grants with a total of \$8,536,924.59 funding for development and sustainability of rural residency training programs across the state of Wisconsin. See Figure 1 below.

Figure 1

Program Information

Policy Guidelines

To ensure compliance at the University, state and national levels, individual grant applicants are required to attest to complying with Accreditation Council for Graduate Medical Education (ACGME) or comparable accreditation requirements, adhering to Centers of Medicare and Medicaid Services (CMS) guidelines and demonstrating that the awarded funds do not supplant existing funding.

WRPRAP monitors grant eligibility through a screening process prior to the submission of a grant application. Eligibility involves programs that are in a “rural area” as defined in the legislation, meaning a city, town or village that has a population of less than 20,000 and that is at least 15 miles from any city, town or village that has a population of 20,000 or more. Programs must educate physicians who specializes in family medicine, emergency medicine, general surgery, internal medicine, obstetrics and

gynecology, pediatrics or psychiatry. Funding is eligible to cover activity costs including, but not limited to, resident salary for rural rotations, curriculum development, technical assistance for rural programs, feasibility studies, and development of new rural GME initiatives.

Fiscal Management

In fiscal year 2022, 90% of the WRPRAP budget was allocated to grants and the remaining 10% was allocated for program operational expenses. Grants were competitively awarded to programs that share the goal of expanding opportunities and preparing new physicians to practice in rural Wisconsin communities. Individual grant recipients were required to complete a midterm progress report and a final summary report during each 12-month term, in order to meet requirements of the agreement. WRPRAP staff monitor the grants throughout their funding terms and may request a site visit to review achievements or make recommendations in support of positive outcomes.

Strategic Initiative

As WRPRAP nears the end of its twelfth operational year, it continues to enhance rural GME activities in Wisconsin. The shortage of rural physicians continues to rise across the nation¹ and in Wisconsin. According to County Health Rankings & Roadmaps, 78% (14 of 18) of Wisconsin's least healthy counties (those counties that ranked in the lowest quartile of counties statewide) were designated as rural counties. To address this growing demand for primary care physicians, both UW-SMPH and Medical College of Wisconsin (MCW) are graduating an increasing number of medical students each year in rural-focused learning environments. The UW-SMPH Wisconsin Academy for Rural Medicine (WARM) program and MCW regional campuses select students who demonstrate a strong potential to practice in rural Wisconsin communities and their educational models provide medical training to support this outcome. WARM students participate in a rural core curriculum along with rural clinical experiences at regional sites. More than 250 students

and Public Health**

Rural Physician Development Continuum

WI AREA HEALTH EDUCATION CENTER (AHEC) exposes K-12 and college students to careers as health professionals.

RURAL AND URBAN SCHOLARS IN COMMUNITY HEALTH (RUSCH) selects and mentors pre-med students in rural or urban underserved medical practice.

WI ACADEMY FOR RURAL MEDICINE (WARM) is a rural education program within the MD Program that combines selective admissions, rural curriculum and rural clinical experience.

WI RURAL PHYSICIAN RESIDENCY ASSISTANCE PROGRAM (WRPRAP) provides support and funding to develop rural graduate medical education opportunities.

WI OFFICE OF RURAL HEALTH (WORH) supports healthcare facilities, provides loan assistance and recruits physicians to rural communities.

¹ University of Wisconsin Population Health Institute. County Health Rankings Organization.

have graduated from WARM and 91 percent of those graduating from residencies are practicing in Wisconsin. Overall 46 percent are practicing in rural Wisconsin, and 33 percent are practicing in their hometowns.

Technical Assistance

In 2011, the Wisconsin Collaborative for Rural GME (WCRGME) was developed through a partnership between WRPRAP and the Rural Wisconsin Health Cooperative. The program provides needed technical assistance and professional development opportunities for rural GME programs, faculty, coordinators, and residents. Now largely involved in developing infrastructure for rural rotations at hospitals and clinics, the Collaborative hosts a database of rural rotation opportunities and markets these as an important first step to prepare the hospital, practice and patients for resident learners. The Collaborative additionally hosts educational conferences and faculty development events throughout the year, increasing its program membership from 21 organizations in 2014 to 67 in 2022. See Exhibit 2 for WCRGME active rural GME sites.

WRPRAP director, William Schwab, MD, is additionally a national consultant for the Rural Residency Program Development – Technical Assistance Center (RRPD-TAC) based at the University of North Carolina with a hub at the University of Wisconsin School of Medicine and Public Health. This HRSA funded center provides technical assistance and other resources to promote graduate medical education programs throughout rural America.

Collaboration

Notable WRPRAP partners involved in preparing a stronger medical workforce across rural Wisconsin communities include the Rural Wisconsin Health Cooperative (RWHC), Wisconsin Office of Rural Health (WORH), Wisconsin Council on Medical Education and Workforce (WCMEW), and Wisconsin Hospital Association (WHA). The Wisconsin Department of Health Services (DHS) GME Initiative provides similar though more restricted funding opportunities to advance rural GME, and many programs have found that WRPRAP and DHS are able to provide complementary grants to help them reach their goals.

In 2018 staff from WRPRAP, WCMEW, DHS and RWHC co-authored an article in the Wisconsin Medical Journal (WMJ), *Graduate Medical Education Initiatives to Develop the Physician Workforce in Rural Wisconsin* describing² their collective achievements and impact on GME in Wisconsin. This report addresses the increasing physician shortage across rural communities in Wisconsin, and identifies potential initiatives that demonstrate success in increasing residency and fellowship training opportunities in Wisconsin. The successes of these programs saw higher recruitment and retention of graduates to practice in rural Wisconsin. The manuscript was published by Wisconsin Medical Journal

² Bruksch-Meck, K., Crouse, B., Quinn, G., McCart, L., & Traxler, K. (2018). Graduate Medical Initiatives to Develop the Physician Workforce in Rural Wisconsin. *Wisconsin Medical Journal*.

(WMJ) as part of a special communication on the state of medical workforce training in rural Wisconsin.

WRPRAP continues to be a sponsoring member of the RTT Collaborative, a national organization that provides leadership, technical assistance and advocacy for rural residency program throughout the United States. Participation in this group leverages national expertise to foster and sustain rural GME programs in rural Wisconsin communities. WRPRAP now facilitates a statewide consortium of participating rural residency programs.

Outreach

Outreach to diverse medical specialties serves as the foundation for WRPRAP's ongoing success. WRPRAP has provided support for each of the eight specialties declared eligible for funding by the legislature – family medicine, general surgery, internal medicine, obstetrics-gynecology, pediatrics, primary care, emergency medicine, and psychiatry.

In 2022, organizations across the state received WRPRAP funding in seven of these specialties: family medicine, general surgery, obstetrics-gynecology, emergency medicine, primary care, pediatrics and psychiatry.

Grants

Categories

The 2014 Health and Medicine Division of National Academies of Sciences, Engineering and Medicine report on *Graduate Medical Education That Meets the Nation's Health Needs* identified recommendations to improve the current state of GME financing.³ One of the recommendations was to recognize the need for different types of funding to support expansion of GME. WRPRAP adopted the recommendation and definitions from this report by creating two WRPRAP funding categories.

1. **Rural GME Operational Grants** support enhancement of current, accredited rural GME programs in Wisconsin, including the funding of rural rotations.
2. **Rural GME Transformational Grants** support the initiation and early development of new rural GME programs in Wisconsin, including new rural tracks within an existing urban residency program.

³ Institute of Medicine. (2014). *Graduate Medical Education That Meets the Nation's Health Needs*. Washington DC: National Academic Press.

Awards

WRPRAP awarded 9 grants from January 1, 2022 to December 31, 2022, totaling \$585,872.78. (See Exhibit 1 WRPRAP Awards).

- **Operational Grants (7)**
 - UW Madison Pediatric Residency Program (2)
 - Rural Wisconsin Health Cooperative (Wisconsin Collaborative for Rural GME—WCRGME)
 - Gundersen Lutheran Medical Foundation, Inc.
 - UW Madison General Surgery Residency Rural Track
 - Medical College of Wisconsin – Central Wisconsin Psychiatry Residency Program
 - UW Madison Obstetrics-Gynecology Residency Rural Track
- **Transformational Grants (2)**
 - Memorial Medical Center
 - Aspirus, Inc.

Required Reporting

Section 36.63 (4)(a)

The number of physician residency positions that existed in the 2009-2010 fiscal year, and in each fiscal year beginning after the effective date of this paragraph that included a majority of training experience in a rural area.

For fiscal year 2022, we identified 307 residents and fellows in Wisconsin’s rural-focused GME programs (see Table 1). This increase from is the result of expanding emergency medicine, family medicine, general surgery, internal medicine, obstetrics and gynecology, pediatrics, and psychiatry residency programs- as well as a continual improvement of data collection and tracking efforts.

Table 1

Wisconsin GME programs supporting rural training: number of total filled physician residency and fellowship positions.

PROGRAMS	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022

Section 36.63 (4)(b2)

The eligibility criteria met by each such residency position and the hospital or clinic with which the position is affiliated.

WRPRAP grants support physician residency positions that are either (1) in a hospital that is located in a rural area or in a clinic staffed by physicians who admit patients to a hospital located in a rural area, or (2) a rural rotation, which consists of at least 8 weeks of training experience in a hospital that is located in a rural area or in a clinic staffed by physicians who admit patients to a hospital located in a rural area. These criteria include the following definitions:

- “Physician” means a physician who specializes in family medicine, general surgery, internal medicine, obstetrics, pediatrics, or psychiatry.
- “Rural area” means any of the following:
 - A city, town, or village in this state that has a population of less than 20,000 and that is at least 15 miles from any city, town, or village that has a population of at least 20,000
 - An area in this state that is not an urbanized area, as defined by the federal bureau of the census.

Section 36.63 (4)(b3)

The medical school attended by the physician filling each such residency/fellowship position for Academic Year 2022 – 2023.

University of Wisconsin School of Medicine & Public Health

PGY-4

University of Miami School of Medicine

University of Wisconsin School of Medicine and Public Health

Western University of Health Sciences, College of Osteopathic Medicine of the Pacific

Section 36.63 (4)(b4)

The reason the residency position had not been funded.

The following programs have not requested funding:

- Aurora Lakeland Rural Family Medicine Residency
- Gundersen La Crosse General Surgery Residency
- Gundersen La Crosse Internal Medicine Residency
- HealthPartners Western Wisconsin Rural Family Medicine Residency Program
- Marshfield Clinic General Surgery Residency Program
- Marshfield Clinic Internal Medicine - Pediatrics Residency Program
- Medical College of Wisconsin General Surgery Residency Program
- Medical College of Wisconsin Northeastern Psychiatry Residency Program
- Medical College of Wisconsin – Prevea HSHS St. Mary’s Family Medicine Residency Program
- Prevea Eau Claire & Augusta Family Medicine Residency Program

Section 36.63 (4)(b5)

The year the Accreditation Council for Graduate Medical Education certified the residency program.

α indicates programs that have received WRPRAP funding.

Aurora Lakeland Healthcare Family Medicine Residency Program

Initial ACGME Accreditation Date: 07/01/2016

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 12

Total Filled Positions: 12

WINC GME Consortium/Prevea (Eau Claire)

Initial ACGME Accreditation Date: March 1975

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 19

Total Filled Positions: 17

Gundersen La Crosse Family Medicine Residency Program

Initial ACGME Accreditation Date: July 1, 2015

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 18

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 36

Total Filled Positions: 29

Marshfield Clinic Internal Medicine- Pediatrics Residency Program

Initial ACGME Accreditation Date: 07/01/2006

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 8

Total Filled Positions: 8

Marshfield Clinic Pediatrics Residency Program

Initial ACGME Accreditation Date: 11/07/1974

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 18

Total Filled Positions: 18

Mayo Clinic Eau Claire Family Medicine Residency Program

Initial ACGME Accreditation Date: April 18, 2016

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 15

Total Filled Positions: 15

Mayo Clinic La Crosse Family Medicine Residency Program

Initial ACGME Accreditation Date: February 05, 1976

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 18

Total Filled Positions: 18

Medical College of Wisconsin Central Wisconsin Psychiatry Residency Program α

Initial ACGME Accreditation Date: 04/29/2016

Accreditation Status: Continued Accreditation

Renewed: February 2022

Total Approved Positions: 12

Total Filled Positions: 11

Medical College of Wisconsin Fox Valley Family Medicine Residency Program

Initial ACGME Accreditation Date: February 1979

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 21

Total Filled Positions: 22

Medical College of Wisconsin General Surgery Residency Program

Initial ACGME Accreditation Date: July 1972

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 40

Total Filled Positions: 43 (temporary approved increase for 1 position thru 2024; temporary approved increase for 2 positions thru 06/30/2025)

Medical College of Wisconsin Northeastern Wisconsin Psychiatry Residency Program

Initial ACGME Accreditation Date: April 2016

Accreditation Status: Continued Accreditation

Renewed: February 2022

Total Approved Positions: 16

Total Filled Positions: 16

Medical College of Wisconsin - Prevea HSHS St. Mary's Family Medicine Residency Program

Initial ACGME Accreditation Date: July 2020

Accreditation Status: Continued Accreditation

Renewed: October 2022

Total Approved Positions: 12

Total Filled Positions: 8

Mercyhealth Janesville Family Medicine Residency Program

Initial ACGME Accreditation Date: January 1991

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 21

Total Filled Positions: 21

University of Illinois College of Medicine Rockford/Monroe Clinic Family Medicine Rural Residency Program α

Initial ACGME Accreditation Date: July 2017

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 9

Total Approved Positions: 28

Total Filled Positions: 28

University of Wisconsin Hospitals and Clinics Pediatrics Residency Program α

Initial ACGME Accreditation Date: September 1933

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 47

Total Filled Positions: 47

University of Wisconsin Hospitals and Clinics Psychiatry Residency Program α

Initial ACGME Accreditation Date: March 1954

Accreditation Status: Continued Accreditation

Renewed: February 2022

Total Approved Positions: 40

Total Filled Positions: 38

University of Wisconsin Hospitals and Clinics Surgery Residency Program α

Initial ACMGE Accreditation Date: No Information

Accreditation Status: Continued Accreditation

Effective Date: January 2022

Total Approved Positions: 43

Total Filled Positions: 43

University of Wisconsin Madison Family Medicine Residency Program α

Initial ACGME Accreditation Date: December 1968

Accreditation Status: Continued Accreditation

Renewed: January 2022

Total Approved Positions: 48

Total Filled Positions: 47

Conclusion

Future Growth and Opportunities

WRPRAP continues to enhance rural graduate medical education and positively influence Wisconsin's future rural medical workforce. It is currently providing funding for initiatives to develop an emergency medicine fellowship in Ashland and a hospitalist fellowship within Aspirus Health as well as ongoing support for rural tracks in family medicine, obstetrics and gynecology, pediatrics, psychiatry and general surgery that have experiences in multiple rural communities throughout the state. It has had an important role in strengthening the Wisconsin Northern & Central GME Consortium (WiNC), an ACGME accredited institutional sponsor that was established to facilitate physician education and workforce expansion in the northern region of Wisconsin. WRPRAP also funds the Wisconsin Collaborative for Rural GME (WCRGME) that has become a national model for providing the technical assistance necessary for expansion of residency education in rural communities. Along with our partners, WRPRAP will continue to champion long-term, viable solutions that address the geographic shortage of physicians in Wisconsin.

Exhibit 1

WRPRAP 2022 Awards

Organization	Start Date	Purpose	Amount
UW Madison Pediatric Residency Program	03/01/22	Continuation of funding support for rural rotations	\$14,289.78
Rural Wisconsin Health Cooperative (Wisconsin Collaborative for Rural GME—WCRGME)	07/01/22	Support activities for current and developing rural GME residency and fellowship programs, rural pathways, and rotation sites	\$173,355.00
Gundersen Lutheran Medical Foundation, Inc.	07/01/22	Expansion of Mobile Medicine program for family medicine residency	\$17,863.00
UW Madison General Surgery Residency Rural Track	07/01/22	Continuation of funding support for rural rotations	\$74,225.00
UW Madison Pediatric Residency Program	07/01/22	Continuation of funding support for rural rotations	\$17,544.00
