Meeting number: 2624 557 6672; Password: 12345 (+1-415-655-0001 from phones)

Nathaniel Mohatt, PhD is a community psychologist and leader of community-based suicide prevention programs within the U.S. Department of Veteran Affairs. He is Principal Investigator and Program Lead of the VA’s Together With Veterans Rural Suicide Prevention Program and serves as Consultant for Community-Based Suicide Prevention to the VA’s National Office of Mental Health and Suicide Prevention.

Dr. Mohatt holds appointments as an Assistant Professor of Physical Medicine and Rehabilitation at the University of Colorado Anschutz Medical Campus and as a Research Psychologist with the VA Rocky Mountain Mental Illness Research, Education and Clinical Center.

In his research, he employs community-based participatory research and health equity frameworks to develop and implement effective and culturally responsive prevention programs and health care services for rural and Indigenous populations. Dr. Mohatt is a member of the Red Bird family from the Rosebud Lakota Sioux Reservation; his work is his way of giving back to his Lakota family and the other Native American communities that have shaped his life.
