

Madison Eligibility Criteria

Applicants must meet one of the following medical school graduation qualifications:

- Graduate of a medical school in the United States or Canada accredited by the Liaison Committee on Graduate Medical Education (LCME). (See this link for a list of LCME accredited schools: <https://lcme.org/directory/>)
- Graduate of a college of osteopathic medicine in the United States accredited by the American Osteopathic Association (AOA)
- Applicants must also have a passing score on USMLE or COMPLEX Step 1 and Step 2 CK within two attempts within the last 2 years.

Interview Selection Preference

Interview selection preference will be given to applicants who:

- Passed USMLE Step 1 and Step 2 within one or two attempts;
- Graduated from medical school within the last two years
- Have clinical experience in the United States or Canada that is particularly relevant to Family Medicine (research or observerships do not qualify as clinical experience);
