# Annual Report 2010-2011 EXECUTIVE SUMMARY

# Education • Patient Care • Research

Health Lives Here. In Wisconsin.

## **WELCOME**

The UW Department of Family Medicine (DFM) trains Wisconsin's future family doctors and physician assistants, provides outstanding primary care for patients statewide, and leads research projects that focus on our state's top health priorities.

This executive summary highlights our activities from July 1, 2010, through June 30, 2011. For the full report, visit www.fammed.wisc.edu/annual-report/2011

#### **KEY FACTS**

- History: Created in 1970 as one of the original 15 family medicine residency programs in the nation
- National Ranking: Ranked fifth of family medicine departments nationwide in US News and World Report's 2011 edition
- **People:** 1055 employees; 199 faculty; 111 residents
- Budget: 2010-2011 budget of \$90,280,132
- Medical Student Education: Statewide medical student education program
- Residency Programs: Five statewide MD/ DO programs; 62% of graduates remain in Wisconsin
- PA Program: Campus- and community-based MPAS program
- Patient Care: 24 statewide clinics had over 454,000 patient visits
- Research: \$3.7 million in research grant funding

#### **Executive Leadership**

Sandra Kamnetz, MD vice chair for clinical care

Linda Haskins, MBA

University of Wisconsin Department of Family Medicine 1100 Delaplaine Court • Madison, WI 53715-1896 Phone: (608) 263-4550 • FAX: (608) 263-5813

# **EDUCATION**

The DFM trained primary care clinicians for Wisconsin through its statewide medical student education, residency, fellowship, and physician assistant programs.

#### **Medical Student Education**

Leadership: David Deci, MD

Faculty, staff, and volunteer preceptors statewide supported 468 students through required clerkship, preceptorship, and electives

Program	# of Participants
Patient, Doctor and Society course	41 faculty/residents 101 students
Generalist Partners Program	139 preceptors 193 students
Primary Care Clerkship	149 preceptors 153 students
Fourth-Year Preceptorship	28 preceptors 73 students
Fourth-Year Family Medicine Electives	70 preceptors 49 students

#### **KEY FACTS**

- Office of Medical Student Education supported 468 students in academic programs in all four years of medical school
- Five statewide **residency programs** trained 111 residents; 34 graduated in 2011
- 9 fellows received specialty training
- Physician Assistant (PA) Program trained 80 students; 30 graduated in 2011

### **Residency Education**

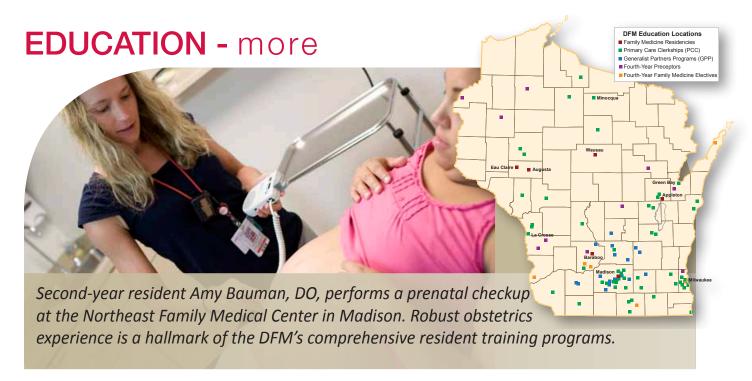

Leadership: Richard McClaflin, MD

Five statewide, dual MD/DO-accredited programs trained 111 residents; 62% of 2011 graduates remained in Wisconsin

Program	# of Residents
Baraboo RTT	6
Eau Claire	18 (including 1-2 at the Augusta alternative training site)
Fox Valley	18
Madison	43 (at 4 continuity clinics)
Wausau	17

#### **Fellowships**

Program	# of Fellows	Leadership
Academic	0	Sarina Schrager, MD
Integrative medicine	2	Adam Rindfleisch, MD
Sports medicine	1	Kathleen Carr, MD
Primary care research	6	Bruce Barrett, MD, PhD

During his Primary Care Clerkship, third-year medical student Josh Reiher (left) experienced real-world family practice under the supervision of volunteer preceptor Troy Doetch, MD, a family physician at the UW Health Oregon clinic.

#### **PA Program**

Leadership: Virginia Snyder, PhD, PA-C

Administratively linked with the DFM; trained 80 students in campus- and community-based MPAS programs

PA students learned important clinical skills during a hands-on casting lab.

The DFM is deeply grateful to the over 500 statewide volunteer faculty who provided hands-on clinical experiences for medical students, residents, and PA students. Your continued dedication and commitment is critical to the success of our educational programs—and Wisconsin's future primary care clinicians.

#### **Patient Visits by Clinic**

Clinic	Total Visits	Physician/NP/ PA Visits		
DFM-managed residency clinics				
Augusta	4,421	3,614		
Belleville	15,828	11,121		
Eau Claire	11,935	9,181		
Fox Valley (Appleton)	20,534	13,176		
Northeast (Madison)	35,593	24,236		
Verona	33,292	23,028		
Wausau	18,833	13,121		
Wingra/Access	23,157	17,279		
UWMF-managed community clir	nics			
Cross Plains	13,335	10,183		
DeForest	22,555	14,824		
Fitchburg	10,453	7,741		
McFarland	14,779	9,993		
Monona	22,678	15,784		
Mt. Horeb	15,661	10,920		
Odana Atrium (Madison)	59,017	36,681		
Oregon	16,165	11,467		
Stoughton	3,426	2,248		
Sun Prairie	35,288	25,855		
Waunakee	8,788	6,327		
UWMF-managed regional clinics				
Beaver Dam	18,321	11,869		
Cottage Grove	7,028	5,304		
Fort Atkinson	16,866	10,155		
Horicon	8,022	5,434		
Portage	18,040	9,502		
Total	454,015	309,043		

#### **QI** Initiatives

Sun Prairie and Wausau Clinics Win Davis Awards – The Sun Prairie Clinic's project on improving INR callback times won the departmental Davis Award for Quality Improvement. The Wausau Family Medicine Clinic's project on improving adolescent immunization rates won the learner-led award.

Eau Claire and Augusta Clinics Nationally Recognized as Medical Homes – The two clinics were among the first in the UW Health system to receive Level I and Level II recognition from the National Committee for Quality Assurance

(NCQA) Physician Practice Connections® – Patient Centered Medical Home $^{\text{TM}}$  (PPC-PCMH) program.

New DeForest-Windsor Clinic Opens — The new 22,000 square-foot, LEED-certified facility consolidates two older clinics in DeForest and Waunakee. Six family physicians, one float, and three physician assistants staff the new clinic, which also offers lab, x-ray, and mammography services, plus health and nutrition education classes.

# RESEARCH

DFM researchers tackled Wisconsin's biggest health priorities through inquiry, discovery, and implementation. For example, researchers led an evaluation of Farm to School initiatives in Wisconsin—programs that aim to get more locally produced, healthy foods into school lunches.

Leadership: Mary Beth Plane, PhD

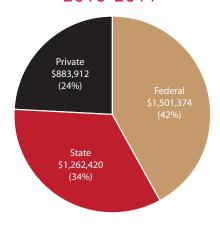

#### **KEY FACTS**

- \$3.7 million in grant funding
- 26 external and 7 internal funded grants
- Projects focused on alcohol and substance abuse, obesity prevention, upper respiratory diseases, integrative medicine, and translational research

#### **Top-Funded Grants**

Title	PI	Agency	Amount
Healthy Children, Strong Families	Alexandra Adams, MD, PhD	NIH	\$549,338
Meditation and Exercise for the Prevention of Acute Respiratory Infection	Bruce Barrett, MD, PhD	NCCAM	\$484,076
Great Lakes FASD Training Center	Georgiana Wilton, PhD	CDC	\$345,126

# RESEARCH FUNDING SOURCES 2010-2011

WREN Co-Presents 4th Health Literacy Summit – In April 2011, the Wisconsin Research and Education Network (WREN)—a statewide practice-based research network of primary care clinicians and researchers—co-presented the 4th Biennial Health Literacy Summit with Health Literacy Wisconsin. Former US Surgeon General Richard Carmona, MD, MPH, FACS (above, with Wisconsin Literacy, Inc. Executive Director Michele Erikson and WREN Director Paul Smith, MD) keynoted the event.

# SPECIAL EVENTS

The DFM holds yearly special events that bring together faculty, staff, residents, students, friends, and guests. The McGovern-Tracy Scholars Award honored medical students or family medicine residents who exemplify outstanding community service, outreach, and leadership.

#### Renner/Hansen Award Ceremony

The Renner/Hansen ceremony honors outstanding achievements in the DFM or the field of family medicine.

#### John H. Renner "Wisconsin Idea" Award

Thomas Peterson, MD, received the 2010 John H. Renner "Wisconsin Idea" Award

The 2010 Davis Award for Quality Improvement went to the UW Health Sun Prairie Clinic (department award) and the UW Health Wausau Family Medicine Clinic (learner-led award)

#### Hansen Lectureship Award

Jennifer Frank, MD, received the 2010 Hansen Lectureship Award ("Serendipitous Scholarship: Pursuing Passion Amidst Unexpected Opportunities")

#### Davis Award for Quality Improvement

# **Eugene Farley Visiting Professorship**

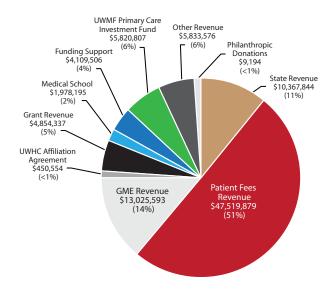

Perry Dickinson, MD, a professor at the University of Colorado's Department of Family Medicine, was the DFM's 2010 Farley Visiting Professor. He spoke about the importance of teamwork in transforming practices into medical homes.

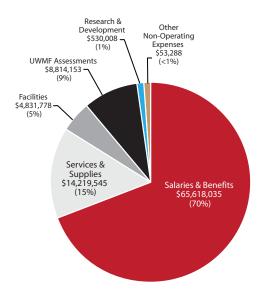

## ADMINISTRATION AND FINANCE

#### **DFM REVENUE 2010-1011**

#### **DFM EXPENSES 2010-1011**

## DONOR RECOGNITION

#### Mai Family Foundation Supports Mindfulness In Medicine

David Mitnick and his wife Rebecca Mai from the Mai Family Foundation

The DFM is deeply grateful to the Mai Family Foundation for its generous support of the Mindfulness in Medicine Program. For more information about the program, visit www.fammed.wisc.edu/mindfulness.

With gift support from the Mai Family Foundation and the Mental Insight Foundation, the DFM developed a 17-hour Mindfulness in Medicine program to reduce primary care physicians' startling levels of stress.

The program is making a difference. Luke Fortney, MD, an assistant professor at the DFM, said early results show that the program left doctors less stressed and more resilient. Twenty-eight primary care physicians participated in the study, which began from the hypothesis that healthier and happier clinicians would lead to less clinician burnout and improved patient care.

"I went to the UW and was always impressed by the quality of medical services provided by the school as well as the school's commitment to expanding medical service beyond the confines of Madison and into other parts of Wisconsin," said David Mitnick, a Mai Family Foundation trustee. "My wife is a psychologist and was always telling me about the great work that the UW was doing in the area of mindfulness, so this seemed like a great fit."
