DFMCH GRAND ROUNDS FORUM

“Weight Management in Primary Care”

Lisa Netkowicz, MD and Brianne Thornton, MS, RDN

June 10, 12:15 PM - on Teams

Join at: <https://bit.ly/JuneGRF>

Learning Objectives:

- Outline the national practice guidelines for management of overweight and obesity.
- Examine the UW Health Adult Ambulatory Consensus Care Guideline for Assessment and Management of Overweight and Obesity in Primary Care and the Agile MD pathway for application in clinical practice.
- Describe mechanism of action, dosing, and average total body weight loss of commonly used anti-obesity medications as well as identify special considerations for people who can become pregnant or who are lactating.
- Summarize weight loss procedures available within UW health and recommendations for monitoring after bariatric surgery.
- Discuss diagnosis and medical management of binge eating disorder.

This presentation qualifies for 1 AMA PRA category 1 credit. For questions, contact dfmch.ofdp@fammed.wisc.edu.
